Dear Medical Professional,

Are you able to receive accurate reimbursement on time and still focus on running your practice? Are you able to tend to your patients and keep up to date with your profession or are you distracted by dealing with insurance companies? Do you have a large load of claims to file but not enough internal resources to handle it all? If you answered yes to any of the above, I can help.

Practicing medicine has never been more difficult. Not only do you need to provide continually advancing health care, you are also working in a profession that is entering a new era in technology. Whether you need full service billing or just claims only, I can be of assistance. Along with this, my service is capable of being fully electronic, which can provide faster reimbursement than by filing paper claims via standard mail.

I look forward to speaking with you to see how I can be of assistance. If you are interested in my services please contact me.

Sincerely,

A handwritten signature in black ink that reads "Brandon Day".

Brandon Day
